

# Small Actions To Make Big Changes

## CONNECT WITH SOMEONE

Are they okay? · Are you okay? · Check in with your support network · Connect with someone new · A sense of belonging and community can help reduce feelings of loneliness.

## PRIORITISE SLEEP

Take small steps to improve your bedtime routine.

Wind down before bed by minimizing your screen time · Make your bedroom a 'tech-free' zone · Create a clean and restful sleep environment · Jot down what's on your mind and set it aside for tomorrow · Avoid caffeine after 4pm.

## MOVE IN YOUR OWN WAY

Get moving the way you want to. This could be walking, running, yoga, stretches, doing some gardening. Move in a way you'll enjoy, get those endorphins flowing and let off some steam.

## SPEND TIME IN NATURE

Take some time out of your day to step outside, get some fresh air and spend time in nature. This could be eating your lunch outside, or taking a short walk after work. Simulate your senses and look at the beauty of nature

## BREATHE DEEP

Your breath is a powerful tool to help with stress reduction and relaxation. Short, shallow breaths can heighten anxiety so being conscious and taking time to breathe deep helps us shift into a relaxation mode.

## PRACTICE MINDFULNESS

Practicing mindfulness allows you to focus on the here and now. It aids self-awareness, helps you practice emotional regulation and control. You can actively practice during a designated mindfulness session or be mindful of your all five of your sense whilst participating in an activity, such as a nature walk.
